 - a. *Except for the 20% administrative fee³ provided for under Section 4 of DOLE DO No. 150-16, insofar as it imposes a minimum administrative fee of 20% of the total contract cost for Service Agreement for security services, which runs counter to the provision of Section 31 of Republic Act No. 9184 and its 2016 Revised Implementing Rules and Regulations. Thus, the NPC does not require for a minimum (percentage) for the administrative fee as a component of the total contract cost. Prospective bidders, however, are reminded to strictly comply with all relevant labor rules and regulations.*

 - b. *The Schedule of Contribution for SSS and PhilHealth and other statutory benefits shall be the latest as issued by the respective agencies.*

³ The Government Procurement Policy Board's (GPPB) clarification through its Non-Policy Matter Opinion No. 120 dated 06 December 2016 (NPM No. 120-2016) regarding the validity of the 20% standard administrative fee provided under DOLE DO 150-16, states:

"Similar to the 10% administrative fee imposed under Section 9(b)(ii) of DOLE DO No. 18-A, the 20% administrative fee provided for under Section 4 of DOLE DO No. 150-16 is also a percentage rate that has for its effect the fixing of a floor price on Service Agreements. In this regard and following the position of the Government Procurement Policy Board (GPPB) as stated and explained in the following GPPB issuances, namely: GPPB Resolution (Res.) No.14-2012 dated 1 June 2012; GPPB Res. No. 14-2015 and GPPB Circular No. 04-2015, both dated 30 April 2015; and Policy Matter Opinion Nos. 03-2012 dated 30 November 2012 and 02-2013 dated 11 April 2014, as well as the case of Philippine Sports Commission, et. al. vs. Dear John Services, Inc. (G.R. No. 183260 dated 4 July 2012), we are of the opinion that Section 4 of DOLE DO No. 150-16, insofar as it imposes a minimum administrative fee of 20% of the total contract cost for Service Agreement for security services, likewise runs counter to the provision of Section 31 of Republic Act No. 9184 and its 2016 Revised Implementing Rules and Regulations."

c. *As discussed in DOLE's Handbook on Workers' Statutory Monetary Benefits, for those who are required to work everyday, including Sundays or rest days, special days and regular holidays, the total number of working days applied is 393.80 days/year since December 8 (Feast of Immaculate Conception of Mary) was declared as special non-working day per R.A. 10966.*

16. The NPC, shall comply should there be a law and other social and labor legislation enacted after the execution of a Contract mandating additional and/or increase in wages, allowances, and other benefits to Service Provider's security personnel resulting in the escalation of the rates of pay to Service Providers security personnel, the Service Provider and the NPC will discuss and negotiate on the adjustment of the rate, provided that, such adjustment in the contract rate shall only cover the one "due to the security personnel" and "due to the government". The corresponding incremental rate (agency fee) for the Contractor shall not be adjusted during the contract period.

How to Use 7-Zip to Encrypt Files and Folders

7-Zip is an open source software used to compress or zip files secured with encryption.

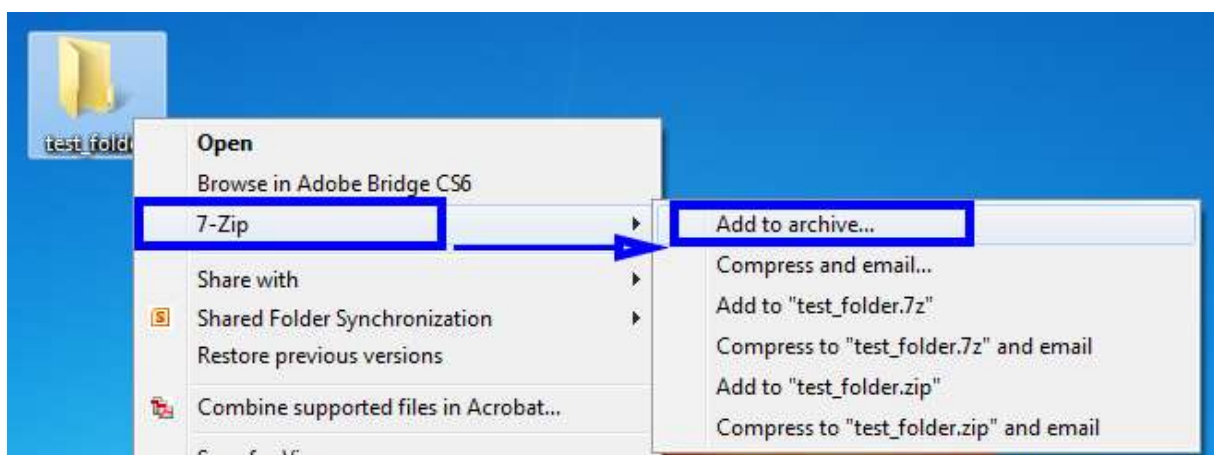

When you send or transfer files that contain Personal Identifiable Information (PII) or other confidential and sensitive data, the files must be encrypted to ensure they are protected from unauthorized disclosure.

7-Zip, like WinZip, creates a container called archive that holds the files to be protected. That archive can be encrypted and protected with a password. 7-Zip is a free software that creates Zip files that can be opened with WinZip or other similar programs.

To obtain a copy of 7-Zip, please see <http://www.7-zip.org/> and select the appropriate Download link. Once the software is installed, please follow these steps to encrypt a file or folder.

Step 1: Right click on the file / folder to be encrypted.

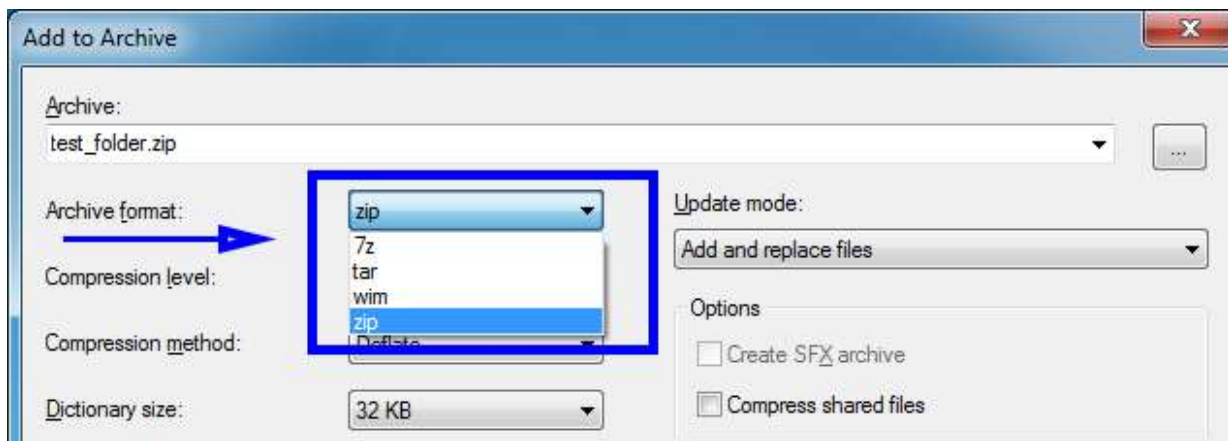

Step 2: Select “7-Zip” then “Add to archive...”

Step 3: In the Add to Archive window change the name of the archive you wish to create.

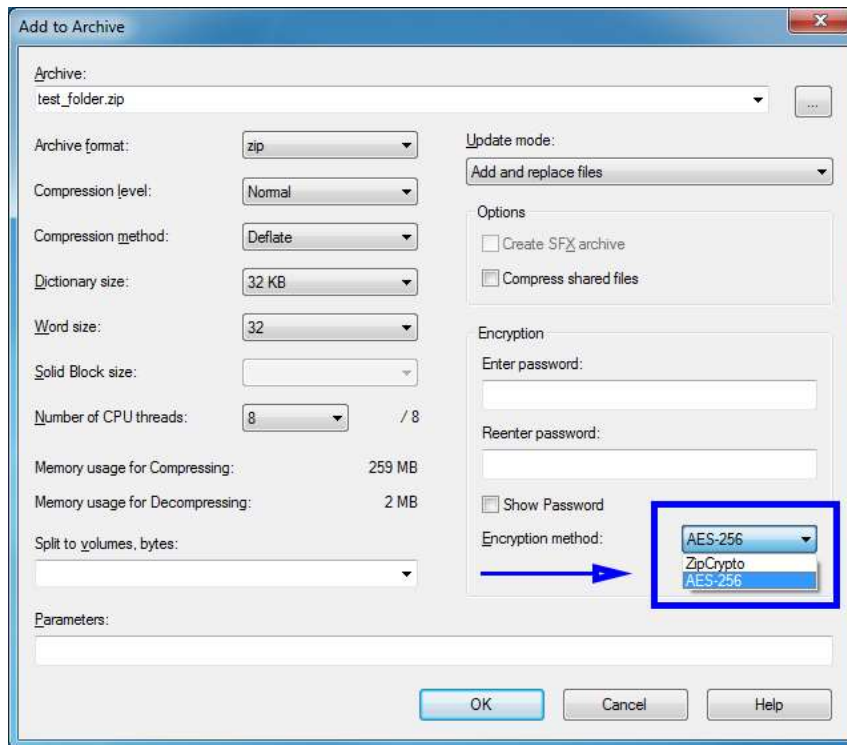

Step 4: Change the Archive format to "Zip".

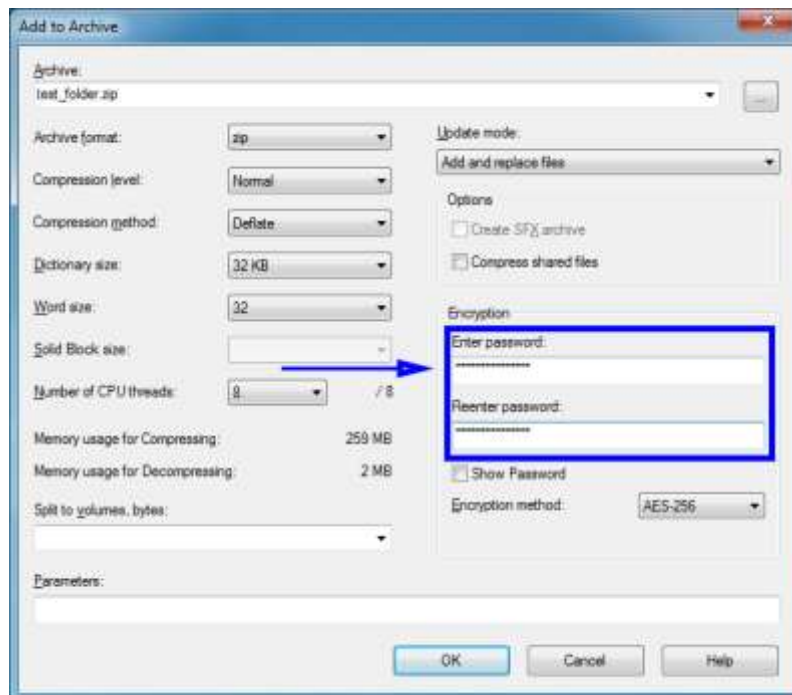

Step 5: Change the Encryption Method to "AES-256".

There is a trade-off between using AES-256 and ZipCrypto. AES-256 is proven much more secure than ZipCrypto, but if you select AES-256 the recipient of the zip file may have to install 7-zip or another zip program to read the file contents. Selecting ZipCrypto may allow users to open the zip file in Windows without a zip program, but it does not provide adequate protection against attackers with modern cracking tools.

It is strongly recommended to use AES-256 to protect sensitive and confidential data.

Step 6: Enter a Password. Use a strong password with at least 8 characters containing upper and lowercase letters, and a minimum of one number.

Step 7: Select "Ok" to create the encrypted archive file. The new archive file will be located in the same folder as the original.

The zip archive has no spaces among its file name, "NPC_JanitorialServices_APPItem..", thus hash command completed successfully
